

## 10" Touch Screen Pivot Monitor (Z5+)

Built with growers in mind, the Z5+ offers unparalleled features for any panel that exists. Z5+ is the first in class, full colour 10" capacitive touch screen computer panel. Unlike other manufactures' computer panels with soft touch buttons, the Z5+ wont wear out. It has an easy swipe format with a modern look. Replacing your main panel is a thing of the past. Retrofit any existing panel with the Z5+ and take control today.

The Z5+ can be used in your existing main panel saving time and money or supplied in a custom built stainless steel panel. It also offer features unmatched by any other brand, including Smart Start. Combined with the easy to use Fieldwise Portal, the Z5+ creates the most enhanced experience currently available.
