

5" Touch Screen Pivot Monitor (Z5)

Built with growers in mind, the Z5 offers unparalleled features for any panel that exists. Z5 is the first in class, full colour 5" capacitive touch screen computer panel. Unlike other manufactures' computer panels with soft touch button, the Z5 wont wear out. It has an easy swipe format with a modern look. Replacing your main panel is a thing of the past. Retrofit any existing panel with the Z5 and take control today.

The Z5 can be used in your existing main panel saving time and money or supplied in a custom built stainless steel panel. When adding to existing panel the Z5 replaces your existing percent timer, while keeping the rest of your panel intact. It also offer features unmatched by any other brand, including Smart Start. Combined with the easy to use Fieldwise Portal, the Z5 creates the most enhanced experience currently available.
