

FieldWise[®] LLC

Intelligent Farming

ARE YOU IN CONTROL OF YOUR FARM'S IRRIGATION?

SMART PIVOT CONTROL

Monitor and control centre pivots, pumps, water tank levels and moisture probes all from a simple smart phone app or home computer.

Be alerted to possible issues by text message or email. Powerful reporting features assist in managing water planning for the future.

Save thousands of dollars per year by eliminating excessive travel and labour costs.

Save precious water resources by eliminating over application of water and fertiliser.

Irrismart is the Australian dealer for the complete Fieldwise product range and we are here to help you **save money and water**.
